

**When struggling with SKIN CANCER:**

I have a few products which I can recommend: (Use 1 or 2 of the following)

1. Bulbinella Cream
2. Beeswax Bulbinella cream
3. DMSO-Bulbinella Cream
4. Cannabis Herbal Skin Cancer Cream
5. Cannabis Can-Cure Cream
6. Cannabis Skin Cancer Serum.

Apply morning, afternoon and night.

The effectiveness of these products depend on the severity of the cancer.

Also one needs to apply daily, every day.

Stay out of the sun.
